Welcome to Synergy XVII Sale and the \$15,000 Synergy Showcase

SYNERGY SHOWCASE

The Synergy Showcase is an annual event sponsored by Synergy members. Show calves purchased from a Synergy member are eligible for Synergy Showcase XVII to be held September 29. Contact any Synergy member for details and rules of the unique, one-of-a-kind showcase. Entry card and class breaks are on page 5. Heifers purchased in the sale can show in the Showcase, September 29.

BROADCAST VIDEO, MAIL OR PHONE BIDS

If you are unable to attend the sale in person, please feel free to contact Terry Reagan or any Synergy member (see cover for cell numbers) to place your bid which will be handled with the utmost confidence. We thank you for all bids and feel confident that our cattle will assist you in accomplishing your genetic goals.

Sale day phones 512-587-7896 or 956-207-1447.

Sale will be broadcast live on www.dvauction.com

AUCTIONEER

Terry Reagan 210-414-4411

SALES STAFF

Representatives from the *Gulf Coast Cattleman*, *Weekly Livestock Reporter*, *Southern Livestock Standard* and American Simmental Association will be at the sale.

EPDS

EPDs current August 17, 2024.

GLOSSARY

All-Purpose Index (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

Terminal Index (TI): Evaluates sire for use on mature Angus cows with all offspring put on feed and sold grade and yield.

Using API and TI: First, determine which index to use; if you're keeping replacements use API, if not, TI. Then just as with EPDs zero in on the unit difference between the bulls. The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years (\$50 diff. x 30 hd. X 4 yr.= \$6,000). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit www.simmental.org.

PARTNERSHIP LOTS

In the case of bull partnership lots, the new partner will have first choice to decide what 60 days they will be able to breed the bull. All decisions relating to the possession, showing, promotion, collecting of semen, and marketing will be mutually agreed upon prior to the transaction with both parties dividing all future expenses and net revenue.

Female partnership lots will be owned 50/50 with all future production being co-owned. The partner with possession will receive \$375 per year for maintenance from the other partner. A partner that is selling their interest must give the other partner the right to match any bona fide guaranteed offer prior to selling their interest to a third party. Contract on these lots will be available on sale day.

SALE TERMS AND CONDITIONS

All cattle sell under the ASA terms and conditions. Copies will be available on sale day.

CATTLE TRANSPORTATION

Professional haulers will be on hand to assist you with the delivery of your cattle. We will assist you in making the most economical trucking arrangements.

HEALTH

All sale cattle of age will be brucellosis and tuberculosis tested and will have the necessary health papers to travel to other states. Any export health papers will be provided at the seller's expense.

Syn-er-gy n. The action of two or more to achieve an effect of which each is individually incapable.

Participants in Synergy have committed to marketing their best genetics and making this event more by working together rather than as individuals. Synergy was developed to be a showcase for the breed. Please come join us.

SEMEN OFFER ON FEMALES

Buyers will receive two units of semen with each female purchased from any of the bulls owned and collected by that particular consigning Synergy member of that lot. This semen is solely for use on your purchased female. Your choice of semen must be made prior to May 1, 2025.

SEMEN POLICY ON BULLS IN SALE

Synergy consignors reserve the right to collect 300 units of semen from any of our bulls in this sale at our expense and at the buyer's convenience.

RANCH LOCATION

Directions From Giddings- Hwy 290 leads to Giddings, at the intersection of Hwy 290 and Hwy 77, go South on Hwy 77 approximately 2 miles and turn left on Road #223 (just past the large beige water tower), go about ½ mile and turn left on gravel road #2231. Stay on Road #2231 until you cross the cattle guard and follow trailer and parking signs.

Directions From LaGrange- From LaGrange go North on Hwy 77 approximately 16 miles and watch for sign to County Rd. #223 and turn right on Rd. #223 (just before the large beige water tower) go about ½ mile and turn left on gravel road #2231. Stay on Road #2231 until you cross the cattle guard and follow trailer and parking signs.

Physical address: 1316 Private Road 2231, Giddings, Texas 78942

AIR TRANSPORTATION

We are 60 minutes from Austin Bergstrom Airport which is serviced by most airlines including Southwest and American.

CATTLE LOAD OUT

We will not load any of the sale cattle until after the sale.

Sale Participants

HENSGENS BROTHERS CATTLE

Our entire family is once again proud to be a part of the Synergy Sale and Showcase. We appreciate Tim and everyone that plays a part in this great event as it takes a lot of time and effort to pull off.

The Simbrah breed is in a position to grow especially in the commercial sector. We all have to work together to convey the truth of how these cattle will work in the real-world environment. An older mentor told me when I was young, "It cost more to change your environment than to adapt." This is the reason we have Simbrah and utilize all Sim-genetics. They thrive in so many different environments across the world to produce quality beef.

It is great time to be in the cattle industry with markets hitting all-time highs both for our commercial and seedstock producers. We have been blessed with plenty of rain so far this year and are looking forward to a great sale and show season this fall. We are located in South Central Louisiana and welcome everyone to visit to see some great Simbrah and Brahman cattle!

BURCH CATTLE

Welcome to Burch Cattle, where our Simbrah cattle continue to thrive in the Oklahoma climate, even during winter. As we grow our herd, the quality of our cattle improves, thanks to our exceptional sires, Smith Born to Dare and Smith Intrigue. This year, we're especially proud of our best-ever calf crop. We've also ventured into selling meat through private treaty, and the response to Simbrah beef has been overwhelmingly positive. We are excited about the future of our program and look

forward to what's to come, both with Synergy and the future of the Simbrah breed.

MONTE CRISTO CATTLE CO.

Congratulations to all involved with the sale team on their 17th edition of the annual Synergy cattle sale event. It's likely the largest continuous running annual sale of the Texas Simbrah industry and is a testament to the exclusive quality of the breeders involved and the dedication of the team that Tim Smith maintains on his staff.

Margie, Mike and I are proud to continue this participation in this quality event.

Those of us in extreme South Texas continue to battle what seems to be an everlasting drought. When deer hunting with my father as a young boy, we shared a deer camp with a county agent named Dr. Maxwell, who became famous for describing the Valley climate as "Persistent drought with intermittent flooding". Ole Maxwell's words ring true even today as we continue to make the best of the lack of rain. Even in our irrigation districts, growers are forced to make hard choices about what to save and what to let go as the shrinking water level in our reservoirs are at or below historical levels. Thank goodness for great cattle prices and a bright future in the coming seasons.

At our ranch, this week we will finish weaning the last pasture holding calves from February. Combined with earlier weanings, we'll be making our final selections from this crop and plan our breeding programs to develop bred heifers for next year's fall sales. As we approach the peak of hurricane season, we continue to count on our Lord to deliver us the life-giving water that we all need. We know He has the power to deliver and He always shows up on time.

FRALISE FARM AND RANCH, LLC/TRIPLE J RANCH

At Fralise Farm and Ranch, we are dedicated to raising cattle that are gentle, hardy, and structurally sound, capable of thriving on our forage-based, intensive rotational grazing program. Our goal is to produce cattle that perform well in the show ring and

excel as breeding adults on pasture. We've developed a comprehensive heifer development program focused on replacement females and continue to enhance our herd by introducing superior Simbrah genetics. With the power of proven sires and cow families, we're capitalizing on the best Simbrah has to offer. Special thanks to Tim Smith for his guidance and for inviting us to participate in Synergy.

STRACK FARMS

We have been breeding Simbrah cattle for 41 years. Over the years we have seen different fads come and go, but the breed is the best it has ever been. With the cattle markets as strong as they are and the improved weather conditions Simbrah has a very bright future. Our ranches are located in Leon County about 1 hour northeast of College Station. Strack Farms carries about 125 mother cows along with young heifers and bulls for sale at all times.

We provide seedstock for local customers, as well as selling to Mexico, Costa Rica and Brazil. Over the years we have seen a number of our cattle excel in the show ring for junior customers. We have been actively involved in the TSSA, as well as area associations within the state. This is the 6th Synergy that we have been involved with, and we have selected some beautiful heifers that possess powerful genetics for your consideration this year.

MCCRARY FARMS

This year marks our 28th year as Simbrah and Simmental breeders, and we're thrilled about the high-quality cattle we're bringing to Synergy XVII. Mark and I are continuously refining our herd by leveraging the best sire power these breeds have to offer. If you take a closer look at our herd's pedigrees,

you'll see the influence of many of the breed's greats. We are strong supporters of Simbrah youth development programs and actively sponsor numerous FFA and 4-H events. Located in the northeast corner of Texas, just south of DeKalb and near the Oklahoma, Arkansas, and Louisiana borders, we invite you to visit our farm anytime. We are proud members of the Synergy group and extend our heartfelt thanks to Tim Smith and the Smith Genetics Team for making Synergy the event of the year!

NIESCHWIETZ 7N RANCH

We warmly welcome everyone to Synergy XVII and extend our deep gratitude to Tim for his unwavering support. We'd also like to thank the juniors, parents, 4-H and FFA advisors, fellow breeders, and everyone who contributes to the success

of this event. Without your involvement, Synergy wouldn't be the success it is today. We are constantly working to enhance our cowherd by integrating superior genetics and proven cow families. Our bull battery has been refreshed with new names like Pay It Forward, Royal, Zuko and Harry, alongside our trusted sires like Accelerator, Frosty, Patron, Potential and Powerman. We've made some adjustments in our percentages, incorporating more Brahman genetics and then using new Simmental genetics to return to purebred Simbrah. These cattle are performing exceptionally well in the warmer, drier conditions we've been experiencing. We invite you to evaluate our cattle and share your thoughts. We hope you enjoy Synergy XVII, and please join us in praying for rain and staying safe.

REAVIS FARMS

As we enter our 37th year as Simbrah breeders, we are as enthusiastic as ever about the limitless potential of the breed. Over the past year, we've introduced new genetics into our program, using top Simmental sires to enhance our EPDs and carcass traits. Our bulls continue to excel in the Rio Grande Valley Beef Improvement Gain Test, and we've

sold more bulls this year than ever before. As our herd continues to grow, our focus remains on producing cattle that thrive in diverse environments, from rugged range conditions to the show ring. In addition to our cattle operation, we run a diversified family farm growing grain, corn, cotton, sunflowers, and watermelons, with a particular emphasis on producing sweet 1015 onions. We invite you to visit our farm and see our cattle—we believe they would be valuable additions to your program. A special thank you to Martha Hollida Garrett for all her efforts, and to Tim Smith for his long-standing dedication to the Simbrah breed. We look forward to seeing everyone at Synergy XVII.

SMITH GENETICS

As we celebrate 17 years, Smith Genetics remains committed to excellence. Our event continues to thrive, thanks to the elite genetics and proven cow families we offer. We are proud to host this annual gathering and are excited about the future of the breed. At Smith Genetics, we are dedicated to progressive breeding practices, using genomic data to complement our visual appraisals. Our commitment to youth continues through our annual Smith Genetics Cow Camp for junior and new breeders. We're proud to see our genetics excel in both junior and open show rings. Our operations span Texas and Kentucky, with a registered horse division in Kentucky. The Kentucky division is expanding, and we're increasing our Simmental numbers at the Giddings location, which is reflected in our offerings. Our lineup includes members of the Bella Bella, Diva, She Moves, Pure Diamond, and 770P-R770 Cow Families, among others. We're excited to feature sires like Smith Steppin' Up Your Game, Smith Follow My Lead, Smith Like Never Before 328G, and Something In Red (SIR), alongside our proven sires like Satisfies, Practical 42D, Smith Have No Fear, Smith Made Solid, Lubbock, and Crockett. Follow us on Facebook/Instagram and check out our website for more information. We are grateful for your support and are proud to host Synergy. We're

TMP LIVESTOCK

Welcome to Synergy XVII!

Our ranch is in Henderson, Texas, where we focus on producing quality Simbrah cattle. Our foundation dams now include the established donors Smith The Next Bella and Smith Priceless Gem 377A, along with 2nd generation donors developed in our program, Smith TMP Bella Paula Marie (aka Bubbles) and Smith TMP Royal Jewel 109G (aka Rude Reba). We are excited to soon see even more of our young cattle enter the donor pens.

Also, this year we have expanded our bull battery by adding three young herd sires: Smith Stay Humble 39L, Smith Can't Stop Being Good (50L) and TMP Smith Big Easy 614L (another young bull that we are proud to have raised). We can't wait to see what their progeny will bring to the table!

We're pleased to announce that TMP had a new future showman born in October of last year. We welcome James Orion to join Jacob and someday Connor in the show ring! Katarina and Kelton are the proud parents of these three boys.

We are offering six lots in the sale this year. Two are solid breeding prospects with exciting futures and four are projected as show calf prospects. Both breeding heifers bring fresh genetics to the forefront. The show prospects feature offspring of two of our young bulls, Smith Adventurer 814F and Smith TMP Cast No Doubt 377J, along with a heifer from one of our future donors, Smith Watch My Moves. You can read more about each of these calves in our sale lot notes.

All our show heifers come with the benefits of our junior program - support at every major stock show, guidance for feeding and showmanship, answers to any questions from our junior showmen and their parents, and access to any of our bulls for breeding. We welcome scramble certificates, too! Ask us about the services we can provide.

Our breeding prospects both come with two straws of semen. Give us a call to visit or check us out on Facebook at @TMP Livestock Company.

confident that our offerings are among the best.

Using Indexes to Advance Your Program

By Wade Shafer

Economic selection indexes were first introduced by Iowa State scientist, Lenoy Hazel, in 1943. Best described as “genetic accounting”, economic indexes blend an animal’s genetic levels along with commodity prices to predict the impact the animal will have on profit when used for breeding. Economic indexes have long been accepted by animal geneticists as the most effective means of making genetic progress for profit and, consequently, have been heavily utilized by the pig, poultry and dairy industries for years. Not surprisingly, the genetic progress made on those species through the use of indexes has been phenomenal—far eclipsing the progress made in beef cattle. By using ASA’s All Purpose and Terminal Indexes, you too can leverage the power of the economic selection index - there is no better tool in the beef industry for making selection decisions!

SMITH BELLA BELLA 326R

nancy

Bella Bella- Ciao Bella- Mi Bella Cara- Bella Notte

Cow Family

This cow family makes you money – simply put!
This cow family has exceeded \$1,000,000 in sales and is the most proven and profitable Cow Family that resides at Smith Genetics. If you want donors – Bella's do it. If you want herd sires – Bella's do it! If you want National Champions Bella's do it! If you want efficient cows that raise big calves year after year – Bella's do it! But most importantly if you want to make a profit in this business – Bella's do it! If you want name recognition and built in marketability – BELLA'S GOT IT! Members of the family include new leading ladies like Smith TMP

Bella Paula Marie, Smith The Next Bella, Smith Ciao Bella, Smith Mi Bella Cara, Smith Isgrig Bella Notte, Smith Bella Amelia, Smith CRC Bella Vive, Smith Bella Olivia, Smith Bella's Milestone, Smith Bella Bella Darlin' and Smith Crack a Smile plus, numerous herd sires like Smith Like Never Before, Smith CRC Lubbock, Smith Detonator, Smith Emmitt, Smith Evan, Smith Rhett and Smith Possibilities to mention a few. Bella Bella and Ciao Bella are now deceased but the performance proven cattle they produced continue their legacy and it will live on for many generations. This cow family excels in longevity and fertility which is a primary reason for their continued success as great brood cows and sires. This year's sale offering from this BELLA COW FAMILY makes us proud! Just look at the impact she has in our cow herd and number of generations of cattle we offer from this pedigree in the sale – Bella's influence in our herd and the breed are unsurpassed and her national recognition from true cattle breeders is why she puts

MONEY IN THE BANK!

SMITH BELLA BELLISIMA 326J-FULL SIB TO LOT 1 MATING

Selling two sexed IVF female embryos with a minimum guarantee of 1 pregnancy (no maximum) if implanted at Smith Genetics. The guarantee becomes void after two years from sale date.

Yes, I have gotten older, but no I haven't gone CRAZY! When friends saw that I was selling some of the last Bella Bella embryos they thought I had lost it, but I see it as the opportunity to own a daughter of one of the most prolific and profitable donor cows I have worked with in my life, and I have been honored to produce and own such a breed great! The resulting progeny from this mating have old and new genetics combined but both sides of the pedigree are proven! The proof of the mating stands in Smith Bella Bellissima 326J (full sib to this mating) and her first calf Smith 4S Jake's Bella Lila. Opportunity knocks and the resulting calf from this mating has even more potential than BELLA herself. Now is your opportunity to GO A LITTLE CRAZY!

DAM: SMITH BELLA DONATELLA
SMITH BELLA BELLA

This granddaughter of Bella Bella needs to be in a donor program! She has all the volume and substance you could ask for in a top easy fleshing female. Her pedigree not only has Bella but look at the sire line up: Satisfies, Broker and Nu Wave. I can't write a better line up of proven sires in a pedigree. If you prefer, Smith Genetics would be glad to partner with the successful buyer on this proven brood cow and future donor. NO guessing here, just look at her granddaughter, 327L selling as Lot 3 and you see the predictability of this family. She sells safe in calf to "SIR" with a calf that combines the Bella and Diva Cow Families. She ranks in the top 25% of the breed for Terminal Index (TI) and top 15% for Calving Ease (CE). They don't get more proven than THE BELLAS!

Bred to Smith Something in Red "SIR", ASA #4084790 on 4/1/24. Safe In Calf.

SILENT AUCTION SCHEDULED

A silent auction will be held on Saturday at Synergy, starting at noon till sale time. Proceeds will benefit Siimbrah promotional efforts.

Twila and Belva Johnson will once again be coordinating the event. Please bring an item to the auction.

The Power of the Cow

Synergy has long been a collection of the most influential and powerful Simbrah genetics available. Smith Genetics and friends have procured, raised and invested in cutting-edge cow families that have produced in both the pasture and show ring, all because of the POWER of the COW. Most of the participants' lots, beginning on page 68, are built on the same solid cow foundation as the Smith Genetics lots are. The top and bottom sides of the pedigrees are loaded with the best cow families in the Simbrah breed, as well as the service sires. Invest with confidence in the POWER of the COW.

TRIPLE P JULIET

SMITH CRC AMBER KEEPSAKE B110-JULIET GRANDDAUGHTER

SMITH SOLID SPARK JULIET 215J-JULIET DAUGHTER

The Juliet Cow Family continues to raise the bar, consistently adding top-performing donors and sires each year, all built on a foundation of unmatched maternal power and impressive show careers. A new feature herd sire from Superior Y18, Smith Steppin' Up Your Game, is set to make a significant impact on the breed. This is truly a Family of CHAMPIONS, with a Houston Junior Show Champion, Wentz Smith Superior in 2012 and International Champion in 2014, Smith Wentz CRC Keepsake. Zachary Mills' remarkable success with Smith Juliet 315A and Smith Juliet's Ashley 215F during the 2020 season further solidified this family's legacy, with both now serving as cornerstone donors. Recent stars, Smith J&L Superior Elegance in 2022 for the Ebert family and Smith Solid Spark Juliet 215J in 2023 for the Sansom family, have also earned their place in the donor barn. But the legacy doesn't stop there. A new shining star has emerged, with the third generation carrying on the winning tradition.

The Hill Family's Smith Juliet Homecoming Queen, campaigned by Kannon, continues to shine in the purple. This cow family lineup is the epitome of strong maternal and bull power, proving their enduring value year after year!

Scholarship PROGRAM

GERTRUDE
SMITH

MARILYN
NIESCHWIETZ

RODRIGO DA SILVA

This is the third year for the \$1,000 Synergy scholarships to be awarded. The Smith Family, Smith Genetics and The Nieschwietz Family, 7N Ranch initiated the program two years ago. The Rodrigo Da Silva Family joined in the efforts in 2023.

These were created to assist youth in their education, as well as honor members of each family. Both families have generations of involvement in agriculture and a strong desire to see continued involvement by youth in farming and ranching and promoting agriculture regardless of their careers.

The Smith Family Scholarship recognizes the contributions of Paul and Gertrude Smith, both deceased and the Nieschwietz Family Scholarship honors the memory of Pete Sr. and celebrates the continuing efforts of Marilyn Nieschweitz. The Rodrigo Dal Silva scholarship was started after Rodrigo judged the first year's candidates and he was so impressed by their knowledge and speaking ability that he chose to establish a scholarship in the name of his family.

The requirements for the scholarships can be found on the Synergy tab at www.smithgenetics.com.

2022 Winners:

Smith Family Scholarship-Hallie Hackett

7N/Nieschwietz Family Scholarship-Carlton Luke Bauer

She Moves-Charming Moves-Tara Moves- Sheza Barbie

Cow Family

The She Moves Cow Family is renowned as a “No Miss” lineage because no matter how they’re bred, the results are consistently exceptional! This family has produced numerous International

Champions, both bulls and females, with a standout being the 2013 International and Supreme American Champion in Houston, Smith Charming Moves, shown by Kaleb Fontenot.

Other notable champions from this family include National Champion Smith A.R.C. Smiling Times, campaigned by the Die Family and Sheza Barbie, campaigned by Zach Mills—both of whom have cemented their legacy as influential donors in the breed. We are now working with the sixth generation of this cow family and they continue to deliver the same efficiency and high-performance traits as their matriarch, She Moves. Cattlemen across the globe acknowledge the profound influence this family has had on shaping the breed!

Selling two sexed IVF female embryos with a minimum guarantee of 1 pregnancy (no maximum) if implanted at Smith Genetics. The guarantee becomes void after two years from sale date.

As we've noted, the She Moves line is known for its "No Miss" pedigrees due to their unwavering consistency. Now, you have the chance to purchase a set of embryos from Sheza Barbie, a young female already making her mark in our donor pen, with two heifers currently on the show circuit. Just take a look at her photo—her udder is ideal in structure and picture-perfect. We're thrilled about the potential of these embryos, especially when paired with Smith Made Solid, a sire who has produced numerous National Champions. The EPD rankings place these embryos in the top 10% for both API and TI, guaranteeing the production of easy keeping, sound-structured cattle with exceptional volume and substance. This is a rare opportunity to invest in genetics that **CONSISTENTLY DELIVER!**

Here's your opportunity to acquire a top-producing female with an exceptional pedigree, directly stemming from the Supreme National Champion at the Houston Stock Show, Simply Moves, campaigned by Kaleb Fontenot. This young cow is the complete package, boasting a picture-perfect udder and strong milking ability, consistently delivering high-indexing calves. With the powerful She Moves cow family behind her and currently safe in calf to our rising star, Smith Isgrig Something in Red, the potential of this upcoming calf is truly exciting. This is a rare chance to add proven, high-performing genetics to your program—don't let it pass by!

Pasture exposed to Smith Isgrig Something in Red "SIR", ASA #4084790 from 1/1/24 to 2/20/24. Safe in Calf.

LOTS 30-32

MOMMA IS PROUD! From one of the most predictable and proven donor cows in our program, we proudly present three exceptional daughters of Tiffany Diamond. These females embody everything we look for in outstanding show heifers—tremendous femininity, structural soundness on the move, impressive body capacity and that striking look that never fails to catch the judge’s eye. Each heifer is exceptional in her own right. Take the time to study them closely, both structurally and in terms of their pedigrees, as they are all sired by proven sires who continue to leave their mark on the breed. Add to that their balanced EPDs, essential for winning in a top PTP show. Whether you’re in search of three-quarter percentage heifers or purebred heifers, these maternal sisters are a MUST SEE—they’ve done their momma proud!

When you come to Synergy this September, you expect to find donor prospects of the highest caliber and this phenomenal Follow My Lead daughter is exactly that. She embodies everything a great one should be, combining top-ranking EPDs—landing in the top 15% for both TI and birth weight—with exceptional physical qualities. We're only offering half interest in this female, but keep in mind that joint ownership provides access to our entire herd sire battery for natural and embryo matings. Progressive breeders should take note of the power and maternal strength she brings to the table. This Follow My Lead daughter checks all the boxes, and do you know the best part? She's built for years of consistent production. This is one I would DEFINITELY INVEST IN!

Selling ½ interest and ½ possession with an option to double the bid and own 100%.

Bred to Smith Steppin' Up Your Game, ASA#3624619, on 5/4/24. Safe In Calf.

Hailing from the renowned Lady Charm 33A Cow Family, this young female is packed with cow power and backed by the proven genetics of Smith Follow My Lead. Take a close look at her and you'll appreciate the length and extension through her neck, the smoothness of her shoulder, the length of her side and the angularity she possesses. She's destined to become a tremendous female with the potential to earn her place in the donor pen just like her grandmother. Her impressive EPDs rank her in the top 5% for TI and top 30% for API, adding even more value to her genetic profile. Selling safe in calf to one of the breed's all-time greats, Smith Satisfies, this young, bred female offers lots of potential to the new owner.

Bred to Smith Satisfies, ASA #2530807 on 8/16/24.

We've had tremendous success breeding 3/4 percentage females, particularly valuing that floating 1/16th of Simmental blood in the pedigree when mated back to purebred sires. That's why she sells safe in calf to the many-time champion bull, Smith Stay Humble. By combining her femininity with his abundant muscle, the resulting calf will have outstanding potential. Ready To Rock lives up to her name, boasting a balanced EPD profile that ranks in the top 15% for both TI and API—she's ready to make a significant impact. Her dam, 824E, remains a cornerstone in our herd, sired by one of my Simmental breed favorites, Executive Order. Destined for Performance – she is special!

Bred to Smith Stay Humble 39L, ASA #4396260 on 7/7/24. Safe In Calf.

Here's your opportunity to acquire one of the few Like Never Before daughters that have left our program. This bull has consistently produced cattle with moderation, making them easy keepers and heavy milkers—and Shining Bright Star is a prime example. I feel confident in her potential, especially when you consider her dam, the Bright Star cow, who is a proven donor for Smith and J&L. Selling bred to Something in Red (SIR), she's poised to produce a calf with tremendous promise. This is a great genetic package that you won't want to miss.

We love our Practical daughters and while I should be keeping them in the herd, I promised to offer our top-end genetics. This heifer shows a bit more leather, a characteristic that traces back to our Annie Lou cow family. If you study her pedigree, you'll find these are loose-hided cattle that can cover ground, tolerate the heat and raise big, stout calves year after year. She's proven not just by her pedigree but also by her impressive EPD rankings—top 15% for API and 35% for TI. All the replacement females selling today boast a balanced set of pedigree and performance traits, which you'll see when you study their EPDs. Take advantage of the semen offer on this young lady, and may I suggest breeding her to Follow My Lead this fall—you won't be disappointed—he always knocks it out of the park.

Bred to Smith Follow My Lead, ASA #3997767 on 8/9/24.

SMITH ANNIE LU-LOT 50 IS A DESCENDANT OF THIS COW FAMILY LINE

SMITH PRACTICAL 42D-SIRE OF LOT 50

Times R Good is an outstanding female sired by the great Just Because, which brings the Diva cow family into her pedigree. This balanced heifer seamlessly puts all the pieces together, blending perfectly from her front third all the way to her back third. Her dam is an ideally uddered female who consistently brings in high-indexing calves year after year. This young lady bred recently and don't forget—you have the option of two straws of semen from our breeding program to use with her. She's a promising addition to any herd.

A black Simmental cow stands in profile in a grassy field under a clear blue sky. The cow is facing left. In the background, there are some trees and a fence line.

SVF GOLD DUST R770

nancy

These two donors, 770P and R770, are full sisters that exemplify some of the strongest maternal traits in the Simmental breed, with an unparalleled ability to produce both herd sires and donors. That's why Smith Genetics has been actively breeding and collecting multiple daughters and members of this cow family—not just for our Simmental program, but also to build a strong foundation of Simbrah cattle from the same lineage.

This family has produced breed-leading sires such as WLE Uno Mas, WLE Twang, WLE Revolution, Smith Dream Carson, and Smith Dusty N Black, to name just a few. We currently have over 15 of their daughters and granddaughters in our donor lineup, utilizing them for new Simbrah lines, SimAngus lines and Purebred Simmental. Their maternal power is undeniable and will always generate profit for those who know how to manage and market these genetics.

The true successful breeders in this industry build their programs off of proven cow families—and this is one that will elevate any operation.

Sit down and take note—we're offering you the chance to invest in an own daughter of the legendary 770P cow, a female who has proven herself time and time again. I could fill an entire page with footnotes about her, but I'll let her picture do the talking. She's truly exceptional, and we're looking for a partner who's as excited as we are about producing Simbrahs, SimAngus and Purebred Simmies from this remarkable female as we bring her into the donor program. Love her style, love her balance, love her broodiness and love the fact that she consistently raises a standout calf year after year. Let's join forces and capitalize on the endless possibilities with this female. Imagine the potential matings we could explore, producing an abundance of calves for four distinct markets—all with the built-in marketability that comes from being a 770P daughter.

Bred to Reckoning 711F ASA #3553633 on 7/10/24. Safe In Calf.

Selling ½ interest and ½ possession – there is NO OPTION to double and own all of her!

LOT 57

This female possesses an explosive genetic combination that, when mated to outcross bulls, has the potential to produce something truly extraordinary. She is line-bred to 770P, the result of the powerful pairing of the great Uno Mas and one of our leading Simmental donors, his sister X3055. We have big plans for this female, intending to mate her with both young, up-and-coming Simbrah and Simmental sires. With her strong foundation, she's primed to produce outstanding offspring and help validate these young sires, enabling us to offer cutting-edge genetics. This is a package for progressive-minded breeders who understand the unlimited potential here. Smart investors will seize this opportunity with confidence.

SHAWNEE MISS 770P	SMITH LIZA N BLACK	

TMP Top Of Her Game is a blazed faced, black percentage Simbrah heifer who is projected as a foundation type breeding female. She is deep-bodied and long-spined with plenty of rib to give her that extra volume. She also has the muscle and bone to go with the volume. Her dam is McCrary Added Game 30J, a Smith Steppin' Up Your Game daughter, who we purchased in Synergy two years ago and who traces back to Dream On. This sale heifer is her first calf, sired by Smith Follow My Lead, who is currently one of Smith Genetics' most popular bulls. Top Of Her Game's paternal side also includes Smith Have No Fear, Wentz Smith Superior, Steel Force, LMC Miss Diva, Smith Nu Wave II and the Juliet cow. What a powerhouse of genetic potential! This pedigree places her in the top 5% for calving ease, top 15% for API, and top 4% for TI. But there's more! She is exposed to our young herd sire Smith TMP Cast No Doubt 377J, who is a Smith No Better Than This son out of our donor, Smith Priceless Gem 377A, a Satisfies/Priceless daughter. See examples of his progeny in our Lots 103 and 104. You simply can't go wrong with this heifer.

Pasture exposed to Smith TMP Cast No Doubt 377J, ASA #3967846 from 7/29/2024 to 9/23/2024. Palpation information available on sale day.

WENTZ SMITH SUPERIOR

SMITH JUST BECAUSE
DAM: SMITH FUTURE SITES
TRIPLE P RHILEY

LOT 101

Blazing Future is a polled, blaze faced, red purebred Simbrah female that we are offering as a show prospect. She is a moderate framed heifer but with enough depth, muscle and volume to compete in the show ring. Her square frame and extended front give her the look needed to excel. She is the second born calf of Smith Future Sites, a Smith Just Because daughter, who is out of a NF Smith Sargeant daughter. Just Because traces back to LMC Miss Diva through Smith SWFS Just a Diva and Smith Satisfies. Blazing Future is sired by Smith Adventurer 814F, one of our established herd sires. He also goes back to Just Because through Wentz Smith Superior, a many times champion show heifer. We like this pairing so much that a full sister to Blazing Future is working in our herd. This female's genetics earn her a place in the top 40% for API, top 30% for TI and top 3% for calving ease. She comes with all the benefits of our junior program - support at every major stock show, guidance for feeding and showmanship, answers to any questions from our junior showmen and their parents and access to any of our bulls for breeding. She qualifies for both Superbowl and Synergy Showcase.

SMITH ADVENTURER 814F-SIRE OF LOTS 101 AND 102

Full Fortune is a polled, purebred black baldy Simbrah show heifer prospect. This female has the length of body, volume, bone, and muscle to be a complete show ring competitor. She also has the extra extension to her front that adds to her attractive look. The dam of Full Fortune is Smith Full Figures 333M, a 7N Smith Potential daughter from an LMC WFC Moose daughter from the Carpenter herd. She is sired by Smith Adventurer 814F, making her a paternal sibling to our Lot 102. Adventurer is a Just Because son through Wentz Smith Superior, going back to Satisfies, Miss Diva, and Dream On. Full Fortune's spectacular pedigree places her in the top 35% for API, the top 20% for TI and the top 15% for calving ease. We also have a full sister to this heifer working in our herd. She comes with all the benefits of our junior program - support at every major stock show, guidance for feeding and showmanship, answers to any questions from our junior showmen and their parents, and access to any of our bulls for breeding. She qualifies for both Superbowl and Synergy Showcase.

SMITH TJJJ MARSHA

LOT 103

Dixie Beauty is a blaze faced red, polled purebred Simbrah heifer that we are presenting as a breeding prospect. She is another deep bodied, big ribbed female with lots of volume. She also has muscle, bone and a square, solid look. This female is sired by Smith TMP Cast No Doubt 377J and is one of his first heifers to hit the ground. Cast No Doubt is one our latest sires and was produced from within our herd. He is sired by Smith No Better Than This through our donor cow, Smith Priceless Gem 377A. Priceless Gem goes back to Satisfies and Priceless. The dam of Dixie Beauty is a Smith Ronen daughter out of our TJJJ Marsha, our very first non-show cattle purchase. Ronen goes back to Sargeant and HR Powerhouse 1. This calf is one of the very first to have parents who were both bred and raised within our program. Her pedigree places her in the top 15% for birth weight. She comes with two straws of semen from any of the bulls in our herd. She is ready for you to breed the way you want her to go.

Open.

Dixie Queen is a solid black purebred Simbrah show heifer prospect. This calf carries herself like she means business in the show ring. She has the muscle, depth, bone and volume to be competitive. Add that to her sassy look and we have a real "queen" here. She is sired by Smith TMP Cast No Doubt 377J and is out of his first group of heifers. Cast No Doubt is a son of No Better Than This and our donor, Smith Priceless Gem 377A. Priceless Gem is a Satisfies daughter out of the Priceless cow. Dixie Queen's dam is a maternal sister to Lot 104, sired by Smith Adventurer 814F, the sire of Lots 102 and 103. He brings in the pedigree of Just Because and Wentz Smith Superior. Her EPDs place her in the top 20% for calving ease. Dixie Queen comes with all the benefits of our junior program - support at every major stock show, guidance for feeding and showmanship, answers to any questions from our junior showmen and their parents, and access to any of our bulls for breeding. She qualifies for both Superbowl and Synergy Showcase.

 halter broke and ready to show in the \$15,000
 Synergy Showcase the next day. YOU MUST
 ENTER THE SHOW SATURDAY NIGHT AT THE
 CHECKOUT DESK.**

We are excited about this year's Synergy offering because we have something for everyone. From pairs to breds to haltered show heifers and they are all functional, high performing individuals, backed by proven genetics. We appreciate your evaluation of our cattle and look forward to seeing you at the sale. Hot Stuff is a powerful young female with abundant muscling and bone. This all blends very well with her femininity and balance. You could not ask for a better udder design on a female. Hot stuff has more of an outcross pedigree but is still backed by genetics like Smith Born to Dare, Courageous, and Smith McCrary Detonator. She is also raising a stout show heifer prospect sired by Smith Like Never Before. She definitely requires your evaluation!

SMITH MCCRARY FIREBALL-SIRE OF LOT 129

Cindy is a long sided, smooth made female. She is typical of Fireball females in that she is very clean, heavily muscled, structurally correct, and easy keeping. Cindy's dam was purchased from the Jud Flowers family in a previous Synergy Sale and she has done an outstanding job of producing functional cattle with outcross genetics. Cindy also has a balanced set of EPDs that ensure she will be a profitable production asset for years to come. She is also doing an outstanding job raising a potential show heifer prospect in RFI Fire Away. This young heifer has loads of style, balance and performance. She will be a valuable breeding tool in her own right. Two units of semen are available with this female for future use including bulls like: Smith Steppin Up Your Game, Crockett, Smith Easy Like and Humble. Pasture exposed to **Smith RFI Revolution, ASA #4233321** from 6/12/24 to 8/22/24. Palpation information available sale day.

Outstanding young cow that is made right and is just getting started in her production life. She is angular and feminine with the right structure and freedom of movement. Her pedigree is old school but still the right school for today's industry. Nu Approach, Debutante, Satisfies and Rio Princess are all genetics that have stood the test of time. Most important of all is she is raising a stout show heifer prospect sired by Smith JCC Courageous. Mother and daughter will both catch your eye and demand your attention. Be sure to take advantage of our semen policy for use in future breeding.

Pasture exposed to Smith RFI Revolution, ASA #4233321 from 6/15/24 to 8/22/24. Palpation information available sale day.

Lot 143A: Smith RFI Just a Princess 87M, ASA #4393858. Polled purebred heifer, DOB 6/5/24. Sired by Smith JCC Courageous 186F, ASA # 3717229.

RFI DEBUTANTE-MATRIARCH OF THE DEBUTANTE/DEB COW FAMILY. LOTS 138, 139 AND 143 ARE PATERNAL GREAT GRANDDAUGHTERS OF DEBUTANTE, WHILE LOT 140 IS A MATERNAL GREAT GRANDDAUGHTER OF DEBUTANTE.

SMITH GASTON 272D

LMC RHINO 5W/367

SIRE: BFL EXPRESSO
BFL LATTE

DAM: LMC ATZ ANASTASIA 5E/196
LMC ATZ SUZANNA 5B/234

Here is a purebred Simbrah heifer that comes to you in a smooth and attractive package. This heifer moves out like a cat and is built for the long run. Ruby's dam, LMC ATZ Anastasia 5E/196, is sired by LMC Rhino and out of a 6G/LMC Rajin Cajun W908 daughter. She is sired by BFL Expresso, an exciting young purebred Simbrah sire whose first progeny are just being weaned this fall.

We believe this heifer has show potential and in the right hands will certainly make her appearance at the backdrop! She is also the kind that will make a long term easy maintaining cow. This heifer is Synergy Showcase and Superbowl eligible! If purchased by a junior, two straws or the option to breed her naturally to any of our herd bulls will be available.
